

## Attestation E1-1043

Herewith it is confirmed that in the first half of 2017 a regular supervision of the product

### E 0,5 ECO logical particleboard

particleboard, urea - formaldehyde (UF), unfaced  
technical class: EN 312, P2; DIBt100, E1  
in the thickness range:  $\leq 40$  mm

manufactured by

**LLC «SWISS KRONO»  
Werk Broshniv-Osada  
Jaroslava Mudroho Str. 62  
80400 Kamyanka-Buzka  
Ukraine**

was carried out by the approved supervision body (NDS08)

### Fraunhofer-Institute for Wood Research

Wilhelm-Klauditz-Institut WKI  
Bienroder Weg 54 E, 38108 Braunschweig, Germany

according to supervision contract no. 1043 dated 27 April 2015. It was found that the requirements on personal and equipment are suitable to produce the product in an adequate way and the factory production control meets the requirements of the "Regulation on the classification and external supervision of wood-based panels regarding formaldehyde emission (DIBt - Guideline 100)" dated June 1994. This attestation is part of the evaluation report and is valid for the following 8 months. The continuous external supervision of factory production control shall take place twice a year.
